The capability to cultivate shellfish and seafood in various ecosystems, to cultivate new species in areas previously out of reach, maximise growth and productivity.

OSTRIGA

Suitable to:

- Traditional culture.
- Long lines in lagoon and open sea.
- Lay on the bottom also at depth.

- Diameter 60 cm
- Capacity 10 Kg

- Capacity 30 Kg

- Capacity 50 Kg

- Capacity of each single tray over 10 kg of product
- 5 trays can be placed one upon another for 50 kg of product
- Hydrodynamic, to better stand to water flow
- Interspaces sized to optimise water circulation
- Partition of internal section to improve uniform growth
- Precise height to avoid polymorphism
- Figures shaped to easy cleaning and washing
- Reusable
- Modular or with single elements open or closed
- Very simple to assemble and to handle
- Easy assembly and disassembly for big save on transport and stocking cost (1>5)

Technical features

	Tray model Ostriga
Components	5 (Ø = 60 cm - h = 10 cm)
Total height	57 cm
Weight	5,9 Kg
External surface	16.391 cm ²
Total volume	28.260 x 5 = 141.300 cm ³
Wall partition	10 mm
Capacity	100 x 5 = 500 ostriche
Volume per oyster	282,6 cm ³
