4MIX 3M	4MIX 3T	4	PR30	12	9
4MIX 4M	4MIX 4M	4	PR40	16	12

These aeration stations are designed to introduce large amounts of air into a single injection point. Triplex can give the flow a precise direction, while 4MIX generates a 360° effect.

These aeration systems are suitable both as emergency solutions and for large aeration tanks with high organic loads, such as leachates from dumpsites or industrial treatments.
